Have Peace of Mind!

Your Leak Proof Solution For Tile & Stone Shower Pan Applications.

Tile-EZ Waterproof Shower Receptor made with patent-pending design and light-weight material for easy installation in the field.

- Solid Cast Pre-Sloped Construction with Integral Tile-EZ Threshold Curb and Flanges
- Custom Sizes / Shapes including Barrier Free and Integrated Seats
- Custom Drain Placement Eliminates the Need to Relocate Existing Drain Pipe and Plumbing
- Guaranteed Not to Leak
- Mildew Resistant

- Pre-Approved Thin-Set Included
- Drain Assembly Included. Optional drain adapters adjust strainer height for different tile and stone thicknesses.

- 1 Tile-EZ Pan placed in field ... can be used for both stone and tile applications. Drain with easy assembly is plumbed in field. Lines cast in base create visual aid for placement of tiles when needed.

Unlike traditional pan liners that can tear or rupture during installation, the solid cast construction of Tile-EZ Pans is extremely strong to walk on without worry when installing cement wallboard (shown on right) before thin-set and tile application.

- 2 Install tile or stone using supplied thin-set to Tile-EZ pan.

- 3 Apply tile, marble or granite to Tile-EZ threshold. Complete surface preparation with typical grout application.

Threshold Options

- Tile-EZ Pan comes standard with a 3 1/4" threshold curb for easy application of tile or stone.
- Barrier free, 4 1/2" and custom size thresholds are also available.

Seat Options

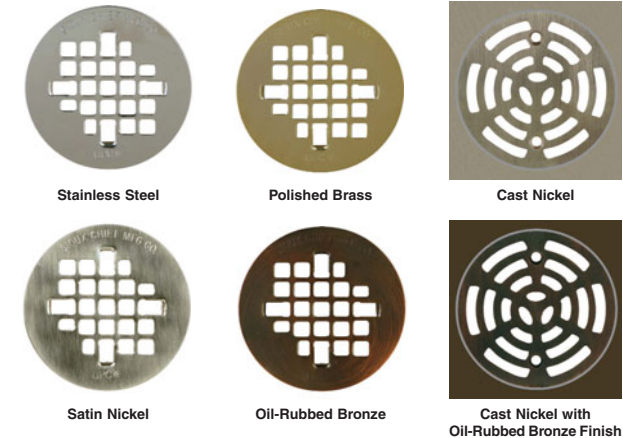

- Tile-EZ Integrated Corner and Bench Seats require no assembly in the field.

Picture above includes the standard size Tile-EZ threshold curb.

Strainer Options

(Stainless Steel is Standard)

Strainer patterns may be subject to change.

Niche Options

- Tile-EZ Shampoo and Soap Recess Niches are available in both Rectangular and Arched Styles.
